The future of healthier care is coming to the Mid-Atlantic

# the future of HEALTHIER

care is coming to the Mid-Atlantic

**Improving the care experience for our members**—your employees—is at the heart of profound changes coming in 2012. They are a continuation of how we kicked off 2011, with the opening of the state-of-the-art Capitol Hill Medical Center.

## EXPANDING SERVICES

We will continue expanding services throughout 2012, when our members will have new locations to receive care, more ways to connect with their doctors, and more medical services available within Kaiser Permanente medical centers. We're also moving some services and expanding the hours where demand is high—all to improve our members' care experience. However, our commitment to our members remains the same: We'll provide them with quality physicians, the interactive technology that connects them to their health care team, and the resources they need to be their healthy best.

## PERMANENTE PHYSICIANS

We have been hiring top-notch physicians, from leading medical schools and community practices nationwide, to join the Mid-Atlantic Permanente Medical Group. Almost 300 excellent physicians have joined us since the beginning of 2009 in many specialties. What does that mean to members? They can receive more types of care than ever before within Kaiser Permanente medical centers. That spells convenience and quality care for them, as well as improved coordination from the primary care doctor's office to the specialist's office, the lab, the pharmacy, and wherever care is provided by Kaiser Permanente.

We believe the results are better health outcomes and healthier lives. And thriving Kaiser Permanente members translate to lower health care costs for your organization.
