## ***New Format for BES Turnaround Document and Report***

A new and improved version of the daily BES Turnaround document for state agencies features a more easily understood format. Named "BES-Turnaround," the new version will also replace the document that the Department of Accounts (DOA) currently distributes. Both the old version and the new will be available for the time being as the new format is phased in and eventually replaces the old version. When no documents are available for the day, the report will be shown as "BES-Turnaround-Empty." The new report format will replace the current report (PM4270) in mid-March.

In addition, a new spreadsheet-format report has been created named "BES-Turnaround-Summary" that summarizes all the turnaround documents for the day. Large agencies should find it very helpful when sorting and prioritizing daily turnaround documents.

Please address any questions or comments about these changes to [brenda.farrish@dhrm.virginia.gov](mailto:brenda.farrish@dhrm.virginia.gov).

## ***Health Benefits Focus for January 2011 on Telemedicine***

Effective this month, state health plans provide coverage for telemedicine services. Please distribute the attached January issue of the *Health Benefits Focus* to your agency's employees.
