Update on New COVA Care and COVA Connect Member Handbooks

The electronic versions of the new 2011 COVA Care and COVA Connect member handbooks will be available on the Web at www.dhrm.virginia.gov, www.anthem.com/cova and www.optima.com/cova in mid-July. We will let you know when they are posted and also when printed handbooks are available later in July. A supply of COVA Care handbooks will automatically be shipped to you based on your agency's BES count, while the COVA Connect handbooks will be mailed directly to employees and non-Medicare retiree group members enrolled in the plan.

COVA Care Four-Tier Prescription Drug Guide Available

The COVA Care Four-Tier Prescription Drug Guide will be posted soon on the DHRM website under Employee Benefits, For Employees, COVA Care, Prescription Drugs. The brochure is attached for your information. The guide is updated annually before July 1 for the new plan year and contains information about the drug program and also a listing by drug category of the most frequently used drugs. This is only an overview. For more complete information, visit the Medco website at www.medco.com.
